Blacklist by alex@siege - January 8, 2014 What I use it for - Simple blacklist for all of my clients so that they can't hotplug certain devices at their computers. Pros: 1. Easy to use 2. Grouped by device type, this allows you to bulk blacklist devices 3. Built in to browser Cons: 1. The list of devices it provides is not complete. It works fine for my own custom blacklist, and it also seems to work fine for badgers and virus scanners, but I don't have a lot of experience with the automatic thing. I could have sworn it was more complete. I'm not sure why.
